

Fire and Our Future

What is the connection between climate change and fires? How will climate impact Eastern Washington communities in the near future?

Washington Green Schools and ESD 112 are convening scientists and educators to investigate climate science topics, make connections to local climate-related phenomena like the impact of fires on the shrub steppe, and identify Next Generation Science Standards learning opportunities for K-12 students.

Thursday, October 24

8:30 a.m.–3:30 p.m.

**Columbia River Gorge
Interpretive Center and Museum**

990 SW Rock Creek Drive
Stevenson, WA 98648

6 STEM Clock Hours

Featured Scientist

Dr. Heidi Roop

Dr. Roop's professional mission is to improve the reach and impact of climate science in order to engage, motivate, and catalyze action around climate change.
