

Floods and Droughts

Are floods, droughts, and extreme weather our new normal? How is climate change affecting our local communities? What are the local learning opportunities for students around how climate impacts them?

Join Washington Green Schools and ESD 112 to explore current research and make connections to local climate-related phenomena. During the second half of the day, teachers will have time to plan activities that will bring climate science learning into their classroom.

Floods & Droughts

- 6 STEM Clock Hours
- First 24 registrants receive sub reimbursement

Thursday, March 28th

8:30 a.m. - 3:30 p.m.

McMenamins Kalama Harbor Lodge
215 N Hendrickson Dr, Kalama, WA 98625

Featured Scientist

Dr. Heidi Roop

Dr. Roop's professional mission is to improve the reach and impact of climate science in order to engage, motivate, and catalyze action around climate change.
