

# Climate Change and Human Health

**How is our changing climate impacting public health? Is there a way to protect our air and water from pollution? How can we build a more resilient community in the face of environmental degradation?**

Join Washington Green Schools and ESD 112 to explore current research and make connections to local climate-related phenomena. During the second half of the day, teachers will have time to plan activities that will bring climate science learning into their classroom.

## Climate & Human Health

- 6 STEM Clock Hours
- First 24 registrants receive sub reimbursement

Friday, March 1st

8:30 a.m. - 3:30 p.m.

Columbia Bank

101 E 6th St, Vancouver, WA 98660

## Featured Scientist

Dr. Heidi Roop

Dr. Roop's professional mission is to improve the reach and impact of climate science in order to engage, motivate, and catalyze action around climate change.
